Reddcoin StakeBox

StakeBox and Reddcoin have partnered together to bring you the Reddcoin StakeBox - a device that allows you to stake your Reddcoin cryptocurrency and make a return on your investment.

Staking Reddcoin is the process of securing the network with your coin weight, which in turn rewards you with new Reddcoin.

The stakebox requires little setup allowing you to get up and running in no time at all and includes all the essential accessories. Set it up and start earning crypto rewards* without needing to buy an expensive computer rig.
